 - 4 Mark ate
 - a the same food all the time.
 - b different food every day.
 - 5 Athens is
 - a not very international.
 - b very international.
- Total ____/5

Working holidays for the summer

What do university students do when summer comes and their exams are over? Working holidays are one popular option.

Last year, Mark, 25, took a job as an English teacher in Greece. Teaching children at an international school was exciting and fun, he said. The school was in a popular holiday resort in Crete. 'Sometimes it was difficult to concentrate on work, when everybody else was on holiday, but apart from that, it was a great experience.'

After working for two months, Mark went travelling. He went camping on the island of Santorini in the Aegean Sea, where he set his tent up on a beach. 'I still remember waking up to the sound of the sea,' he said. He also rented a motorbike and occasionally he went driving around the island.

Because he didn't have a lot of money, he cooked for himself. 'My meals weren't very varied even if the food was delicious. After a while, I stopped eating fish and cheese because I was bored of them.'

After Santorini, Mark spent a month in Athens. The capital is a very cosmopolitan city and the people are very hospitable. The city was very busy and full of wonderful things to do. 'I learnt so much and had a great time. I can't wait to do it all again.'

So, if you want to have some fun and learn at the same time, you should consider a working holiday.
