

7. JOBS

Do this activity to

- practise your listening.
- watch four videos about a dog whisperer.
- learn new vocabulary.

INTRODUCTION

Cesar Millan works as a dog educator. He is an expert in dog rehabilitation. The first step to help owners control their dogs' behaviour is to diagnose the problem.

INSTRUCTIONS:

1. Open **this document** to answer the questions. Print it out to hand it in or email it to your teacher.
2. Search the **DOG WHISPERER website**. Then click on **'Test your skills'** to go to the videos and try to outsmart Cesar. There are four videos.
3. Click on **'Begin'** to watch the Video. You don't need to understand all the words.
4. Choose a diagnosis from the list. Cesar, the dog whisperer, will let you know if you are correct.
5. After reading the information about the problem watch Cesar's diagnosis.
6. Then click on **NEXT** to watch other videos and diagnose the other cases.

QUIZ: DIAGNOSE THAT DOG! (Adapted from **The Dog Whisperer website**)

Circle the correct answer

1. Patient: TOOTSIE AND GINGER

- A. The dogs have sibling rivalry.
- B. Their owner is reluctant to discipline them.
- C. Tootsie is aggressive and Ginger is passive.
- D. Ginger's owner encourages bad behaviour.

2. Patient: BUFFY

- A. The horses intimidate Buffy.
- B. Buffy's owner does not spend time with her.
- C. Fences put Buffy into a crazed state.
- D. The dog is in predator mode around horses.

3. Patient: KIKO

- A. Lack of exercise makes Kiko aggressive.
- B. Kiko is afraid of the rottweiler.
- C. He senses that his owner is afraid.
- D. The dog is an escape artist.

4. Patient: WILLIE

- A.** The dog is hiding from his owners.
- B.** He thinks growling is a game.
- C.** Willie is acting upon his emotional distress.
- D.** The owner provokes and frustrates Willie.
